RECIPE

Ingredients

30	pcs	Pork tenderloin medallions 2.11 oz
50	g	Cooking oil
1	pinch	Salt

1. Food Preparation

Mix the pork tenderloin medallions with the oil and spices. Salt just before cooking so that the meat does not become dry. The meat can be seasoned as desired. For example, with various herbs or even with Rubs

2. Cooking Instruction

Spread 15 medallions each on the 1/1 GN Grill grate with cross pattern, non stick coating. If a larger quantity is to be produced, it is best to use only every second insert. At the specified core temperature, the pork tenderloin turns pink. If it should be more cooked through, increase the core temperature accordingly.

3. Food Serving Instruction

After cooking, let the meat rest briefly, salt and arrange.
